Career Objective

Passionate Full Stack Web Developer and founder of MGZon AI, an AI-driven global e-commerce platform inspired by Amazon and Shopify. MGZon AI provides personalized shopping experiences and dedicated stores for vendors, targeting global markets. Developed MGpay, an internal payment and profit withdrawal system integrated with Stripe, PayPal, and Visa, enabling seamless financial transactions for vendors. With over 5 years of programming experience, I specialize in TypeScript, MongoDB, React, Django, and Linux systems. I am currently working on registering MGZon AI as a U.S.-based company and building strategic partnerships with warehouses in the USA, Canada, and China to create a robust e-commerce ecosystem. My goal is to drive innovation, support vendors, and maximize client success through scalable solutions.

Education

Bachelor of Information Systems

2020–2023

Faculty of Computers and Information, Alexandria University, Egypt
Grade: Very Good

Work Experience

Founder & Lead Developer, MGZon AI

2023–Present

- Founded MGZon AI, a next-generation e-commerce platform with AI-driven personalization, offering dedicated stores for vendors and targeting global markets.
- Developed MGpay, an internal payment and profit withdrawal system, enabling vendors to manage transactions seamlessly with integrations to Stripe, PayPal, and Visa for global and regional payment support.
- Integrated MGZon AI with external payment gateways (Stripe, PayPal) and warehouse systems in the USA, Canada, and China, operating under U.S. licenses, to support drop-shipping, marketing, and subscriptions.
- Designed a fully dynamic system for subscriptions, commissions, and profit calculations, allowing vendors to customize their stores visually without coding.
- Built scalable backend systems using TypeScript, MongoDB, and Django, ensuring seamless vendor, user, and supplier interactions.
- Spearheaded efforts to register MGZon AI as a U.S.-based company, enhancing its global credibility and operational capacity.
- Leveraged strong persuasion and client acquisition skills to drive sales and maximize profitability.

Freelance Developer (Remote)

2020–2023

- Developed e-commerce platforms with API integrations for payment gateways and dynamic systems.
- Utilized Linux systems and terminal-based workflows for efficient development and deployment.

- Focused on scalability, user experience, and system optimization in all projects.

Unpaid Internship, USBank (Online)

2022

- Contributed to financial systems and online banking operations in a remote setting.
- Collaborated on API integrations and system testing, enhancing operational efficiency.

Skills

• Technical Skills:

- HTML5, CSS3, JavaScript, TypeScript
- MongoDB, React, Node.js, Python, Django
- Docker, PostgreSQL, SQL, Git, Linux
- PHP, UX/UI Design, API Integration
- Firebase, Search Engine Optimization (SEO)
- Payment Gateway Integration (Stripe, PayPal, Visa)
- Complex Project Planning, Terminal-Based Workflows

• Soft Skills:

- Strategic planning and goal-oriented problem-solving
- Strong client acquisition and persuasion skills
- Effective communication and team collaboration
- Time management and ability to work under pressure

Training & Courses

- FreeCodeCamp: Web Development and JavaScript Certifications
- Online courses in Python, React, TypeScript, and Firebase
- Unpaid Internship at USBank (Online)
- Actively pursuing "English for Career Development" on Coursera to enhance professional communication

GitHub Achievements

- Pull Shark: Significant contributions to open-source projects
- YOLO: Pushed commits without review
- Quickdraw: Rapid pull request resolutions

Languages

- English: Intermediate (actively improving through dedicated courses)
- Arabic: Native

Favorite Quote

If you want to set a goal, set it at the stars. Because even if you lose this goal, you will definitely reach the moon. Motivate yourself constantly because you deserve to be the best.
